REMARKS

Missing voters were last seen across Oklahoma on the morning of November 8, 2016. These are civilian, non-military, non-institutionalized adults who were aged 18 years or older at the time of the election.

DETAILS

The Women's Institute for Independent Social Enquiry (WiISE), a nonpartisan think tank, is issuing this report to alert the public to the millions of Oklahoma voters missing from the November 2016 elections. Concerned individuals with an interest in locating these citizens and aiding their future participation in Oklahoma elections are urged to share this alert widely.

Acknowledgements

The authors would like to thank the following individuals who have provided invaluable support to WiISE and the Missing Voters Project: Adam Guth, Amit Pathak, Beverly Ward, Camila Ozores Silva, Carles Muntaner, Didier Menard, Janelle Menard, John Heimburg, Julie Rioux, Kim Wilson, Nina Basu, Phyllis Barnett, Rebecca Garcia, Robert Barnett, and Sarah Projansky.

About the Author

Elizabeth B. Pathak, PhD is the President and Chair of the Board of WiISE. She is a population health scientist whose research focuses on geographic, socioeconomic, racial, ethnic, and gender disparities in health outcomes in the United States. She is a passionate advocate for methodologically rigorous scholarship which seeks to uncover the power relations that perpetuate socioeconomic and health inequalities.

Ellie Margolis, JD is Vice-Chair of the Board of Directors of WiISE. She is Professor of Law at Temple University. Throughout her career, Professor Margolis has worked to advance the rights of women and those underrepresented in the legal system. Her scholarly work considers the impact of technological advances on legal persuasion in a variety of written forms, and is widely cited in legal writing textbooks, law review articles, and appellate briefs.

About WiISE

The Women's Institute for Independent Social Enquiry (WiISE) is a nonpartisan, progressive think tank whose mission is to foster a just society through independent social science, humanities, arts, and public policy research. We believe that rigorous evidence-based research, when effectively translated for a broad spectrum of audiences, can be a catalyst for transformational social change. We champion the ideas of women by cultivating and supporting women scholars and leaders.

Who Are Oklahoma's Missing Voters?

Missing voters are voting age citizens who did not vote in November 2016. Missing voters reflect the diversity of Oklahoma as a whole. They are men and women of all ages and races. Nonetheless, voting participation in Oklahoma varies considerably across specific population groups. The purpose of this report is to provide a detailed description of the characteristics of missing voters in Oklahoma and to inform the widespread grassroots efforts to increase voter participation in the 2018 mid-term elections and the 2020 presidential election.

What is the Missing Voters Project?

We believe that civic disengagement represents a fundamental threat to the separation of powers in our government, and to American democracy itself. Unfortunately, low rates of voter participation have persisted in the United States for many years, and a culture of complacency has ossified around this political reality. We chose the design motif of an FBI Missing Persons poster for the Missing Voters Project with the goal of eliciting feelings of unease and alarm to fracture this culture of complacency.

The purpose of the Missing Voters Project (MVP) is to present rigorous, impartial data about the demographic characteristics of missing voters in a format that can be easily accessed and used by a wide range of educational, community-based, faith-based, and worker-friendly organizations in their efforts to increase civic engagement. Missing Voters Project reports for other states and the nation can be found on our website (<https://www.wiise-usa.org/mvp>).

Data and Methods

The Missing Voters Project data are from a special supplement to the Current Population Survey, administered in November 2016 immediately following the election by the Bureau of the Census. This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation.

Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Limitations

We recognize that there are important voting justice issues that can not be addressed directly through the data analyzed in our report. These issues include voter suppression and intimidation, purging of voter registration rolls, partisan gerrymandering, and other direct and indirect tactics that result in citizen disenfranchisement. Readers are encouraged to consult the Resources at the end of this report (pages 8-9) for links to organizations working directly on these issues.

How to Use This Report

Each page of this report has been designed with a dual purpose: as an integrated part of the whole report, and as a stand-alone "Fact Sheet." Organizations working to increase voter registration can pull out individual pages to reproduce and share. On our website (<https://www.wiise-usa.org/mvp>), readers can download the whole report, or choose to download single page fact sheets on their topics of interest.

Figure 1: Voting in Oklahoma

Citizens 18+ years old in 2016
Total = 2.7 million

Oklahoma Voting in 2016

In 2016, there were an estimated 2.7 million civilian voting age citizens in Oklahoma. The citizen population estimates shown in this report include only the *non-institutionalized* population. This means that prisoners, nursing home residents, and other institutionalized persons are not included in any of our reported statistics. However, voting age citizens who may be legally ineligible to vote in Oklahoma are still included in the estimates in this report.

More than half (56.6%) of voting age citizens in Oklahoma reported voting in November 2016. There were 1.2 million missing voters, 0.9 million (74.3%) of whom were not registered to vote before the election (Figure 1).

Oklahoma’s Voting Rate Lower than National Average

Nationwide, 61.4% of adult citizens voted in 2016, compared with 56.6% of citizens in Oklahoma (Figure 2). Only a minority of missing voters were registered to vote before the election (23.2%, Figure 2); in Oklahoma the proportion who were registered (25.7%, Figure 1) was slightly higher than the national average.

Figure 2: Voting in the United States

Citizens 18+ years old in 2016
Total = 224 million

Notes

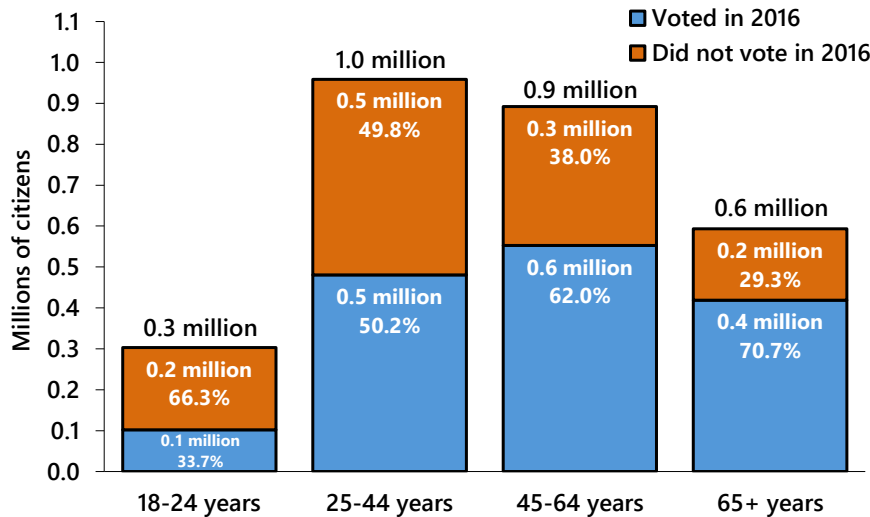

Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Young Adults Least Likely to Vote but Majority of Missing Voters were 25+ Years Old

Voting participation varied sharply by age in Oklahoma in 2016. Only 33.7% of young adult citizens voted, compared with 70.7% of senior citizens (Figure 3). Adults 25 to 44 years old were the largest group of voters (1.0 million) and of missing voters (0.5 million). For all ages, the majority of missing voters were not registered to vote prior to the 2016 election (Figure 4).

Figure 3: Voting by Age
Citizens 18+ years old in Oklahoma in 2016
Total = 2.7 million

Young Adults

Barely one-third (33.7%) of the 0.3 million citizens aged 18 to 24 years in Oklahoma voted in 2016 (Figure 3). This resulted in 0.2 million missing voters, the majority (79.1%) of whom were not registered to vote before the election (Figure 4).

Adults 25-44 Years

Half (50.2%) of adults 25 to 44 years old voted in 2016 (Figure 3). There were 0.5 million missing voters, of whom only 28.0% were registered to vote before the election (Figure 4).

Middle-Aged Adults

There were 0.9 million middle-aged citizens in Oklahoma and 62.0% reported voting in 2016 (Figure 3). There were 0.3 million missing middle-aged voters, including 0.1 million who were registered but did not vote (Figure 4).

Figure 4: Missing Voters by Age
Citizens 18+ years old who did not vote in Oklahoma in 2016
Total = 1.2 million

Seniors

There were 0.6 million senior citizens in Oklahoma in 2016 and 70.7% of them voted (Figure 3). Of the 0.2 million missing voters, the majority (73.6%) were not registered to vote prior to the 2016 election (Figure 4).

Notes

Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Oklahoma Women were a Larger Share of Electorate and More Likely to Vote

In 2016, there were 1.4 million voting age women citizens in Oklahoma, compared with 1.3 million men. Women were more likely to vote (57.9% vs. 55.3%) (Figure 5). The number of missing voters was almost the same for women and men (0.6 million). Voter registration rates among missing voters were low for men (26.1%) and for women (25.3%) (Figure 6).

Women

There were 1.4 million voting age women citizens in Oklahoma in 2016. More than half (57.9%) of them voted (Figure 5). There were 0.6 million missing women voters, and the majority (74.7%) were not registered before the election (Figure 6). There were 0.2 million women who reported being registered but who did not vote.

Men

There were 1.3 million voting age men citizens in Oklahoma in 2016, and more than half (55.3%) voted (Figure 5). There were 0.4 million missing men voters, and 73.9% (0.6 million) of them were not registered to vote before the election (Figure 6). There were 0.2 million men who reported being registered but who did not vote.

Figure 5: Voting by Gender

Citizens 18+ years old in Oklahoma in 2016
Total = 2.7 million

Figure 6: Missing Voters by Gender

Citizens 18+ years old who did not vote in Oklahoma in 2016
Total = 1.2 million

Notes

Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Fewer than Half of American Indians in Oklahoma Voted; Most Missing Voters were White

Voting participation varied sharply by race and Hispanic ethnicity in Oklahoma in 2016. Non-Hispanic white citizens had the highest rate of voting participation (60.5%), compared with 55.9% of Blacks and only 47.6% of American Indians (Figure 7). Almost two-thirds (66.7%) of Hispanics in Oklahoma did not vote. The majority of missing voters were were not registered to vote before the election in 2016 (Figure 8).

Figure 7: Voting by Race and Hispanic Origin

Citizens 18+ years old in Oklahoma in 2016
Total = 2.7 million

Whites

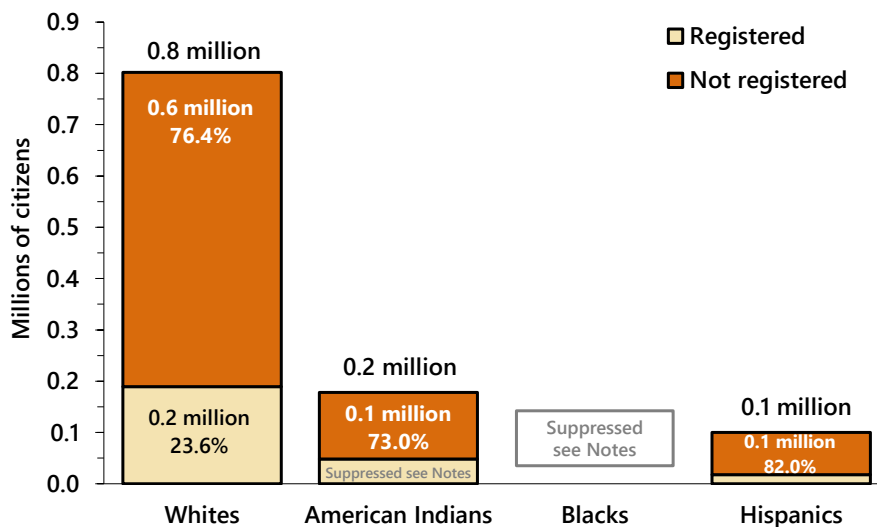

Non-Hispanic whites were the largest group of citizens in Oklahoma (2.0 million) and the majority (60.5%) voted in 2016 (Figure 7). There were 0.8 million missing voters, including 0.6 million (76.4%) who were not registered to vote prior to the election (Figure 8).

American Indians

Fewer than half (47.6%) of American Indian citizens in Oklahoma voted in 2016 (Figure 7). There were 0.2 million missing voters, the majority (73.0%) of whom were not registered to vote before the election (Figure 8).

Figure 8: Missing Voters by Race and Hispanic Origin

Citizens 18+ years old who did not vote in Oklahoma in 2016
Total = 1.2 million

Blacks

More than half (55.9%) of Oklahoma Black citizens voted in 2016 (Figure 7). There were 0.1 million missing voters. Results showing the registration status of Black missing voters were suppressed (see Notes).

Hispanics

There were nearly 0.2 million voting age Hispanic citizens in Oklahoma in 2016. The majority (66.7%) did not vote (Figure 7). Almost all (82.0%) of the 0.1 million missing Hispanic voters were not registered before the election (Figure 8).

Notes

Whites are non-Hispanic, and Hispanics may be of any race. Blacks and American Indians include multiracial individuals. American Indians include Alaska Natives. Data are not shown for Asians who were <1% of Oklahoma's population. Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Figure 9: Where did Citizens Register to Vote?
 Citizens 18+ years old who were registered to vote in Oklahoma, 2016
 Total = 1.9 million

What Does this Chart Show About Where Citizens Registered to Vote?

Respondents to the Voting Supplement of the Current Population Survey were asked in November 2016 about the method and location of their most recent registration to vote. Only people who said that they were currently registered were asked this question. Nearly one-fifth (19.6%) of registered citizens in Oklahoma did not know or remember how they had registered to vote (Figure 9). It is possible that citizens who had been continuously registered at the same residential address for several years were less likely to remember their method of registration.

Local Government Offices

Taken together, registration at department of motor vehicles (25.7%) and local government offices (22.6%) accounted for 48.3% of voter registrations prior to the November 2016 elections. In addition, 8.5% of registered citizens reported that they mailed their voter registration form to a government election office.

Voter Outreach Efforts

In total, 4.9% of registered citizens reported registering as a result of voter outreach efforts at a registration drive. Results for registering at a school, hospital, or college campus were suppressed (see Notes).

Internet

The internet was a less common method of voter registration in Oklahoma. In November 2016, 4.1% of registered citizens reported that they had registered online. Oklahoma does not currently permit first-time voter registrations through the internet, but voters can update their registration information online.

Notes

Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Figure 10: Reasons for Not Registering to Vote

Citizens 18+ years old who were not registered in Oklahoma, 2016

Total = 0.6 million

What Does this Chart Show About Reasons for Not Registering to Vote?

Non-voting respondents to the November 2016 Current Population Survey were asked if they had registered to vote. Respondents who replied “no” were asked their reason for not registering. Self-reported reasons are shown in descending order by frequency in Figure 10.

Readers should be aware that respondents who refused to state whether or not they had registered were not asked about their reasons. Therefore, the respondent universe for this question (0.6 million adults) is smaller than the total number who were not registered (0.9 million) as shown in Figure 1. We classified people who refused to say whether or not they were registered as unregistered citizens.

Lack of Interest

The single largest reason (35.1%) that citizens in Oklahoma stated for not registering was that they were *not interested in the election or they were not involved in politics* (Figure 10).

Deadlines

The second most common reason for not registering was *did not meet registration deadlines* (18.0%) (Figure 10). Responses for all remaining reasons were suppressed due to data limitations (see Notes).

Notes

Please note that some numbers may appear not to add up correctly due to rounding. Voting data are from the Bureau of the Census, Current Population Survey (November 2016). This report includes statistically-weighted estimates of percentages and population counts derived from a Oklahoma sample of over 1,300 adult respondents. Data in response categories for which the estimated Oklahoma population was fewer than 75,000 citizens have been suppressed per Census Bureau recommendation. Full technical details for the Missing Voters Project, links to the original census data, and other valuable resources are available at <https://www.wiise-usa.org/mvp>.

Community-based, faith-based, and worker-friendly local organizations can use the resources listed below to aid in efforts to motivate citizen involvement, expand voter registration, combat voter suppression, eliminate election day logistical barriers to voting, and monitor local election procedures.

The webpage links in the listings below were active as of October 2018. Please visit our website for an expanded resources list with current links: <https://www.wiise-usa.org/mvp-resources>.

Oklahoma Voting Rights Organizations

ACLU of Oklahoma

<https://www.acluok.org/>

The ACLU defends the civil rights and freedoms granted by the Bill of Rights, including voting rights.

League of Women Voters of Oklahoma

<http://lwvok.org/>

The League of Women Voters is a nonpartisan political organization encouraging informed and active participation in government. It influences public policy through education and advocacy.

Native Vote

<http://www.nativevote.org/>

A nonpartisan organization focused on mobilizing the Native American population to vote through voter registration and get-out-the-vote initiatives.

Oklahoma State Election Board

https://www.ok.gov/elections/Voter_Info/Register_to_Vote/

Provides information on voter registration including eligibility requirements, deadlines, registration forms and links to online registration.

FREE Resources for Local Organizations

National Association for the Advancement of Colored People (NAACP)

<https://naacp.org/campaigns/fighting-for-democracy/>

The NAACP's Civic Engagement focus, Turn Out 2018, is a voter registration and mobilization program designed to reach voters and convey the message "Defeat Hate. Vote!" Extensive FREE resources for local organizations and individuals are available for download.

Vote411.org

<http://www.vote411.org/>

VOTE411.org is a FREE "one-stop-shop" for election related information. It provides state-specific nonpartisan information to the public. An important and very popular component of VOTE411.org is the polling place locator, which enables users to type in their street address and retrieve their poll location.

National Voting Rights Organizations

Advancement Project

<https://advancementproject.org/issues/voting-rights/>

Advancement Project is a next generation, multi-racial civil rights organization. Advancement Project is deeply involved in movement-based work aimed at blocking barriers to the ballot for voters of color and expanding access to the vote before Election Day.

Common Cause

<https://www.commoncause.org>

Common Cause is a nonpartisan grassroots organization with chapters in 35 states that works to promote government transparency, equal voting opportunities and fair representation in the political process.

Demos

<https://www.demos.org/issue/voting-rights-voter-registration>

Demos ("the people") is a public policy organization working to reduce political and economic inequality and to guarantee the freedom to vote, through research, advocacy, litigation, and strategic communications.

Southern Poverty Law Center (SPLC)

<https://www.splcenter.org/our-issues/voting-rights>

The SPLC is dedicated to fighting hate and bigotry and to seeking justice for the most vulnerable members of our society, using litigation, education, and other forms of advocacy for equal opportunity.

UNIDOS US

<https://www.unidosus.org/issues/voting/>

UNIDOS US (formerly National Council of La Raza) and its network of nearly 300 affiliates serve the Hispanic community through research, policy analysis, and state and national advocacy, and community programs.

Voter Participation Center

<https://www.voterparticipation.org/>

The Voter Participation Center's mission is to increase civic engagement among the Rising American Electorate: unmarried women, people of color, and millennials.

Voto Latino

<http://votolatino.org/election-center/election-center/>

Voto Latino is a nonpartisan organization dedicated to civic engagement, issue advocacy, and leadership development. They provide extensive resources to promote voter participation among young Latinos.

Youth Organizations**Alliance for Youth Action**

<https://www.allianceforyouthaction.org/campaign/democracy-done-right/>

Alliance for Youth Action is a nationwide network of organizations building political power of young people. The Democracy Done Right campaign supports automatic voter registration for all citizens.
